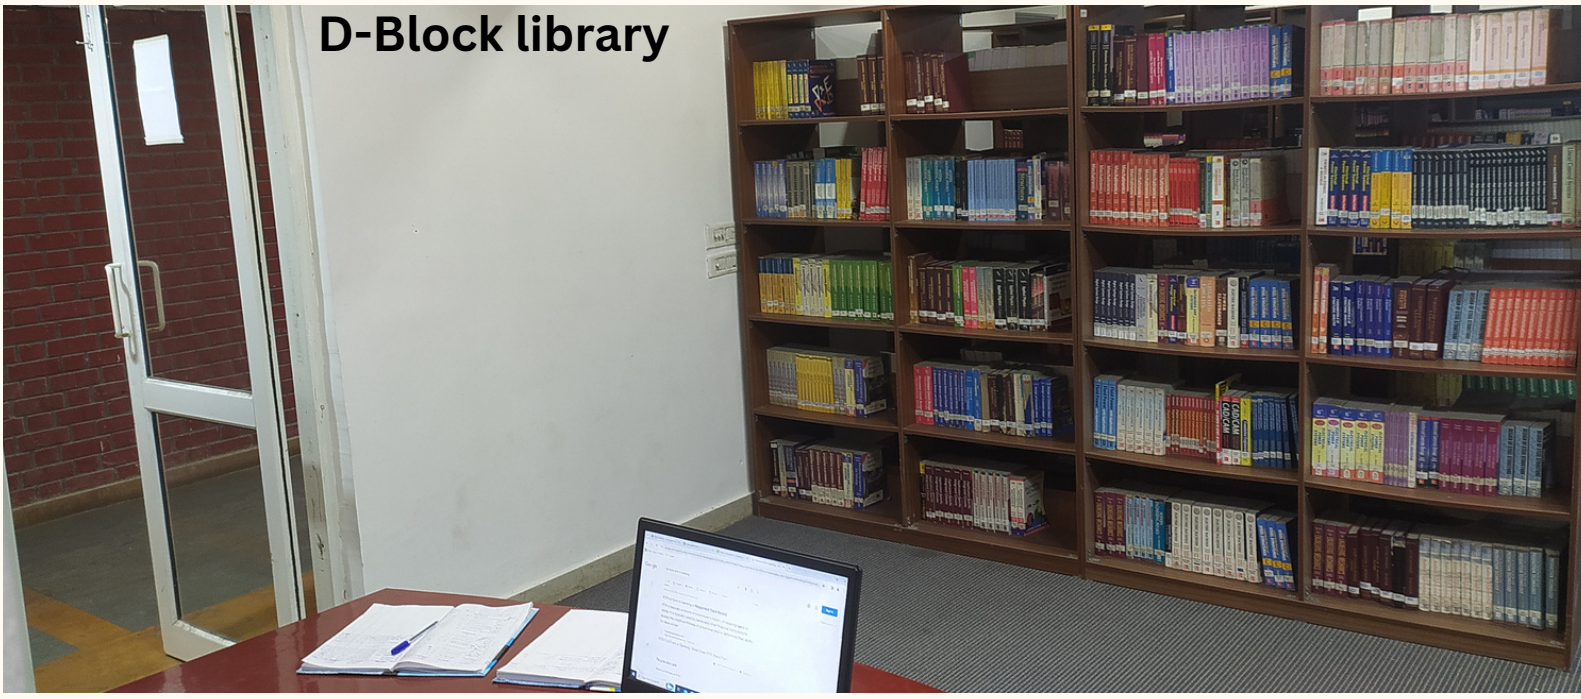
Change of location

Whether you enjoy suspenseful thrillers, heartwarming novels, thought-provoking non-fiction, or captivating children's books, we have something to cater to everyone's taste. Be sure to head on over. check out our section at **LAW LIBRARY, A Block 5th Floor**

A NEW LIBRARY FOR YOU

The recently established library, located on the 1st floor of Hostel D Block in CR- 102, is designed to cater for the needs of students. Students have access to a wide selection of books covering a variety of disciplines, including Civil, Mechanical, Electrical, Education, and Design.



DIGITAL REACH OF GU LIBRARY

In addition to its digital collection, the GU library has added several new electronic databases-

Emerald Case Study- Emerald Insight provides seamless access to high-quality, impactful journals, books, case studies, Expert Briefings and a growing collection of open access content to a global audience.

Sage Business Cases- Sage Business Cases is a robust digital collection of business cases tailored to library and instruction needs—providing faculty, students, and researchers with unlimited access to more than 5,500 authoritative cases from over 120 countries.

JSTOR-JSTOR provides access to more than 12 million journal articles, books, images, and primary sources in 75 disciplines. We help you explore a wide range of scholarly content through a powerful research and teaching platform. We collaborate with the academic community to help libraries connect students and faculty to vital content while lowering costs and increasing shelf space, provide independent researchers with free and low-cost access to scholarship, and help publishers reach new audiences and preserve their content for future generations.

HeinOnline- HeinOnline is a premier online research platform that provides more than 210 million pages of multidisciplinary periodicals, essential government documents, international resources, case law, and much more. Composed of fully searchable image-based PDFs and available at an affordable price, the wealth of material allows academic institutions, government agencies, law firms, court systems, corporations, and other organizations access to authoritative, true-to-print digital material without the hassle or cost of using multiple research databases.

Turnitin- The Turnitin software checks for potentially unoriginal content by comparing submitted papers to several databases using a proprietary algorithm.

MEET OUR NEW LIBRARY EMPLOYEES

DR. BADRI VISHAL

13-year experience in prestigious institutions makes me a dedicated and driven library expert. Holding a Ph.D. from Babasaheb Bhimrao Ambedkar University, a prominent central institution in Lucknow, Uttar Pradesh. In addition to his library professional credentials, he has also earned both an MBA and a master's degree in business administration. Digital library services, library automation, and e-resource management are his primary areas of expertise. He has extensive experience working with KOHA (Library Management Systems), DSPACE, and plagiarism detection software.

ANIRBAN MAITY

His professional background consists of serving as a faculty member of library and information studies at Maharani Kasiswari College, University of Calcutta in 2022-2023, as an Assistant Librarian at Hindustan Times in New Delhi from 2018 to 2021, and as an Associate at Tata Consultancy Services in Kolkata from 2016 to 2017. His academic background include a Bachelor's degree in Library and Information Science and a Master's degree in Digital Preservation from the University of Calcutta. The National Eligibility Test was also successfully passed by Anirban in December 2017 and July 2018. There are various areas of his professional interests, including Keyword Indexing, Metadata Structure for News Articles, Information Retrieval, and AI implementation in knowledge processing as well as the implementation of digital libraries. Further, his personal interests include Indian mythology, water infrastructure, English and Bengali literature, music, hiking, and traveling.

BIDHAN DOLAI

Bidhan Dolai is a Library and Information Science expert with a good academic background and a strong desire to modernize library services. He has a varied range of credentials, including an M.Phil. in Library and Information Science and is currently working on a PhD. Bidhan has gained extensive experience in a variety of library positions at prestigious institutions, demonstrating his expertise in library operations, digital tools, and material administration. He excels under pressure, retains a strong sense of social responsibility, and sets a high value on teamwork, thanks to his charisma and unflinching determination. Bidhan's main interests include library digitization, knowledge center administration, open-source software, and metrics research.

NADEEM JAVED

Nadeem Javed is a library professional with a Master's degree in Library and Information Science from Aligarh Muslim University. He has a solid educational background that includes a Bachelor's degree as well as UGC NET credentials. He has worked as a library trainee at the Physical Research Laboratory and as a school librarian. Nadeem's qualities include an optimistic attitude, accuracy, and the capacity to remain calm in stressful situations. His areas of interest include library cataloging, classification, user research, Learning Management Systems (LMS), and digital repositories. He is not only committed to his professional development, but he also enjoys reading competitive books about Library and Information Science and playing cricket. In the field of library and information science, his zeal for organizing knowledge and improving user experiences in the digital age distinguishes him.
